Comments: Hello - I want to support the extension of the EagleVail trail to the BC entrance. I live on the West end of EagleVail very close to this trail, and believe both the neighborhood and trail users will benefit greatly from the extension. Existing trails are crossing private property, which should be eliminated, and users of the trail would benefit from further maintenance and care to make the ride experience safer and more enjoyable. This extension would improve the trail and respect the rights of private homeowners.
