Comments: I have been trying to leave comment for 2 days to the link for comments to this project. It comes up as "page cannot be found"

I am leaving it hear and would like to hear from someone that it was received.

I am a land owner in North Sandwich NH. I see this project profoundly affecting every angle of how our citizens and communities engage with these lands.

I have numerous concerns with the proposed FS project # 57392. And, not enough time to communicate thoroughly before the opportunity to comment closes. The level of urgency here feels wrong.

Aside from this project threatening mature forests that have found their way back to health and vitality with landscapes that support endangered species, incredible biodiversity, healthy water quality, and a prized landscape for backcountry recreation and our communities economy; I see NO details to alternatives in the plan. The importance of looking at all options and the health of our land, wildlife, people[hellip]. our future; means including responsible well detailed options. I see no details to a No Action Alternative. My understanding is this is not within protocol.

I request the comment period be extended and more opportunity for the public, who's lands these are, have appropriate opportunity to understand the plan, ask questions and be participants in the outcome.

With deep passion ~

Leslie Jose
