First name: Scott

Last name: Limmer

Organization: Comanche Wilderness Outfitters

Title: Manager

Comments: Our business holds an outfitting permit in areas accessed by the Crown Point Road and Pingree Park Road. We will be doing trail work inside and adjacent to the CPWA in July and August and setting up camps in August before our operating season opens on September 2nd. If the FS is planning to close either of these roads for this project, we will need to coordinate or get passes to get through and we would like to know the prescribed fire and treatment schedules for the summer and fall months. Please have someone with this project reach out to us. Other than this issue, we support the goals of the project. Thank you.
