Comments: The groups proposing these huts need to provide more details about the use case, management plans once they are built, and environmental impact of construction and increased traffic to these areas. I am supportive of more huts in the Baker area but not without more information about the level of equity that will exist at these huts. Constructing a hut that will only be available to clients paying a premium for guiding services or tour companies do not serve the broader community or align with the values of the USFS and NPS.
