Comments: I believe the public needs more information to make an informed decision about the proposed huts.

Clarification around the following topics will be imperative to the decision-making process:

Public Use: Will any of the huts be available for unguided use or self-access by the public? If so, what portion of time/space will be allotted for public use? Are there cost estimates?

User Group Conflicts: Two of the huts will be placed next to snowmobile trails and accessed from Sno-Parks with limited parking. Snowmobilers are the primary funding source to groom and maintain these roads in winter. What measures will be put in place to prevent conflicts between user groups?

Usability: I have concerns with the terrain around the Heliotrope hut. There's little terrain for safe storm-day skiing, which may lead it to underutilization in high avalanche danger periods.

Environmental Impacts: Proposals leave the environmental impact of the huts unclear. Will the Twin Sisters hut require cutting old-growth to install? How will human waste and water be managed?
