Comments: One of my favorite parts about the North Cascades is how wild and undeveloped it is. I think we should keep it that way now and for future generations. I don't really have any problem with guide companies operating in these areas but why should we allow them to bring shelters up there that are only open to their clients? If we allow this now will this later expand to include shelters for other guide companies? Why can't they just bring tents up there like everyone else?
