Comments: The details provided in the scoping letter don't fully address whether there will be public access to the huts. Will the public be able to access any of the guide huts without a guide or a paid snowmobile ride? If so, what portion of time/space will be allotted for public use? Are there cost estimates for users?

Additionally, what are the ecological impacts? What will the environmental impact of these huts be? Will the Twin Sisters hut require cutting old-growth to install? How will human waste and water be managed?

At this time, there is not enough information available to the public to make an informed decision about the proposed huts.
