Comments: Montana has enough wildernes. You are just limmiting us retired people from being able to axcess areas because we cant walk that far any more. You keep chipping away at the public land to limit axcess. you already stole a lot of snowmobiling areas.Snow mobilers have little impact. Ive snowmobiled in this state for over 50 years and it sickens me what you have done. it must stop. Every one has the right to enjoy the public land.
