Comments: Montana has enough wilderness. You are just limiting us retired people from being able to access areas because we can't walk that far any more. You keep chipping away at the public land to limit access. You already stole a lot of snowmobiling areas. Snowmobilers have little impact. I've snowmobiled in this state for over 50 years and it sickens me what you have done. It must stop. Every one has the right to enjoy the public land.
