Comments: There is not enough information available to the public to make an informed decision about the proposed huts.

Will any of the huts be available for unguided use or self-access by the public? If yes, what measures will be put in place to prevent conflicts between user groups (snowmobilers, backcountry skiers, etc.)?

What will the environmental impact of these huts be? Will the Twin Sisters hut require cutting old-growth to install and how will human waste be managed there?
