Comments: I am encouraged by the reclamation of Gold Creek; however, as a frequent visitor to the Snoqualmie Pass area, I am concerned there is not an adequate plan to ensure impacts from this project are minimal.

Parking for winter recreation is already at capacity. I would like to see the Forest Service explore the following options to ensure access to all groups during this closure:

- Keep the Gold Creek Sno-Park and roadside parking open, even if the Gold Creek Pond is closed.
- Keep backcountry travel up Gold Creek valley (outside the closure area) open.
- Plow the PCT North Trailhead lot and designate it as a Sno-Park.
- Develop an additional Sno-Park on the north side of exit 62.
- Plow the road to the Lake Keechelus Trailhead lot and designate it as a Sno-Park
