Comments: Hello, I'd like to raise awareness that Rampart / Gold Creek Valley area is often used, during sprint-to-fall times, by paragliders, like myself, for recreational flights. At times, handgliders fly here too.

I'd urge you to please: 1) consider alternative solutions for us to reach the launch area (47.386100, -121.364000) and 2) eliminate the use of helicopters or other aircrafts in the area (whether this is not possible, limit their use AND post their schedule in advance (use of NOTAM is highly appreciated, or similar public advisory).

Thanks for understanding, SR
