Comments: Hello!

After reading the scoping letter I have a series of concerns that appear unaddressed with currently provided information. I believe that there is not enough information available to the public to make an informed decision about the proposed huts.

Please see below for information which I believe should be agreed upon at the community level prior to implementation of this plan.

Public Use: Will any of the huts be available for unguided use or self-access by the public? If so, what portion of time/space will be allotted for public use? Are there cost estimates for users?

User Group Conflicts: What measures will be put in place to prevent conflicts between user groups? Two of the huts will be placed next to snowmobile trails and accessed from sno-parks with limited parking. Snowmobilers are the primary funding source to groom and maintain these roads in winter.

Environmental Impacts: What will the environmental impact of these huts be? Will the Twin Sisters hut require cutting old-growth to install? How will human waste and water be managed?

Usability: The Heliotrope hut has little terrain for safe storm-day skiing, which may lead it to be underutilized in our wet and wild winters.
