Comments: Hello to Those who make impactful decisions!

Our World is full of noise from so many sources.

The Quiet is a treasured commodity getting shorter and shorter in supply.

The World is noisy... the news... the loud worries in our minds.

I implore you who have the power to please not allow access to areas from where it is too easy to illegally bring loud vehicles into the Badger Two-Medicine. I speak on behalf of the animals and all human beings who dearly treasure the quiet of sacred lands.

Thank you!

Ann Barnett
