Comments: For multiple reasons, (no parking, increased trail use but no financial help toward grooming, putting them directly on the snowmobile groomed trail which will cause conflict between user groups, waste management issues, and them being for profit) are why I am OPPOSED to the for profit temporary winter shelters.

I am for the snowmobiles safety shelter, as it is just that. It was built by volunteers and is put in place for all to use. It is open always for anyone who needs a place to warm up while on the hill. It's meant for safety and is not for profit. Overnight camping is also not permitted.
