Comments: To the agencies concerned,

We would like to comment on the proposed project in the Gold Creek area. We want any management activities to protect the wildlife corridor that goes under I-90 east of the pass. We want any management plans to stop illegal activities, including driving past the boat launch to put boats in the water. The launch should be closed at that point! All fish habitat should be undisturbed and/or enhanced by any management activities. Thanks for the opportunity to submit comments.
