First name: Wilson

Last name: Manuel

Organization:

Title:

Comments: This is a lake that is frequented by locals who follow the rules presented to them. The issues arise when people, who not are familiar with the area, come up and are not respectable to the area. Closing the lake would cause a negative impact to the community and that should be taken into account. It has been noticed that the neighboring lakes where there is more affluent people, they do not run into nearly as many restrictions as we do.
