Comments: I am opposed to the use of a Prescribed Burn or anything related to it for the North Sandia Fuels Reduction project.

I understand the need to restore the forest structure to reduce the risk of catastrophic fire in the future and in that regard support the use of volunteers to assist in removing overgrowth and downed wood from the area.

I believe the citizens are aware of the need to prevent a fire in the area and are ready and willing to assist in clearing it, without using a burn to do so.
