Comments: My husband and I especially enjoy taking our two elementary school children to the Dick Boyce trail to enjoy the snow. This area is enjoyable because it is closed to motorized vehicles. I feel safer bringing my children to areas like this to try out cross-country skiing and snowshoeing. We don't have to be on the lookout for snowmobiles and such. Although I also enjoy the shared trail at Big Meadows, it is nice to have a non-motirized option.
