Comments: I support the proposed upgrades to Sweetwater Lake. It is my preference to see the outfitter business remain there, and to improve the buildings and provide housing for that business. I recall that the previous private land owner considered many terrible ideas to exploit this landscape and having the state step in to conserve this land was the best possible outcome. There is a very loud minority of locals that are trying to fight any progress, but this all would have ended much worse if not for the state's involvement.
