Comments: Thanks so much for your consideration of the horse community. This is a wonderful place for horse camping and as a Trail Head to beautiful horse trails into the Flattops Wilderness. It will be used and greatly appreciated by the horse community.

Thanks also for considering the "cave" for sensitive care and preservation. It's a unique asset that deserves special attention.

What are the instructions for using these resources in the interim ... before everything is completed?

How should horse people access the TH? Where can we park?
