Comments: Regarding : Pumice Flats Group Campground

Would it be possible to get a waterline and hose bib installed adjacent to the restroom near group camp site 2?

It is a long walk carrying a heavy bucket of water to campsite 2 because presently you have to walk all the way to Campsite 1 or all the way to campsite 4 to access water. In each case it is a distance of over 300'. Since it is imperative to have a bucket of water on hand to douse ones campfire this should be taken as a safety concern as well as a matter of campsite convenience.

Thank you.
