Comments: I would like to express my gratefulness for the opportunity to comment on this proposal.

I believe that this proposal is VERY worthwhile to improve safety and decrease congestion at the base of Peak 9 and at the base of the C chair. In both locations you have skiers of all levels commingling and the more advanced skiers are always moving faster than the novices, watching for unexpected movements in congested spaces. Just like the Freedom Chair improved circulation on Peak 7, so will the new C chair improve Peak 9 circulation and increase use of the underutilized terrain on that part of the mountain.
