Comments: As someone that owns property on Jellico Creek Road and property that borders the National Forest, I oppose any national forest logging. I have visited virgin forest and feel it was very fascinating and I would like our forest be allowed to age for our children to enjoy. I also oppose the noise of logging trucks and more traffic on Jellico Creek Road. I bought property on this road because it is a quiet road comparatively speaking. The views of the surrounding mountains are very beautiful and I believe any clear cutting is detrimental to the beauty that we all enjoy. Thank you for taking consideration of my comment.
