Comments: To whom this may concern,

I object to the project because I do not believe adding bigger and faster lifts are the answer. Quite frankly, I enjoy riding the slow lifts. It allows the skier to really slow down and enjoy the moment and it provides a more intimate experience in my opinion. It seems like Vail Resorts just gets bigger and bigger with faster and larger lifts yet I do not find the experience getting much better. I also believe the gondola goes to nowhere and money could be better spent elsewhere. I know my opinion is probably not popular but I hope it will be taken into consideration.

Thank you.
