Title:
Comments: I live very close to the Daniel Boone Forest, and spend a lot of time hiking, etc. If this logging project goes through, irreparable damage will be done to our forest, all in the name of profit. This will be a disaster. Old growth trees will be removed. Birds and animals will be displaced and killed. The forest should be protected, not exploited for profit. If this planned project goes through, it will be a huge dereliction of duty by the government to the detriment of those of us who live in close enough proximity to enjoy the beauty of this forest. This forest should be protected, not destroyed in the name of greed and profit.
