First name: Tim
Last name: Mcguire
Organization:
Title:
Comments: I want the emphasis of this huge project to be on the ecological health of the environment/ the forest. Any profits motives should be a far 2nd or 3rd priority for this project. Safety for everyone is also a priority for me and should be for this project and all participants. Slow down those logging trucks and others when driving through Twisp or anywhere. Respect the communities you are impacting with your noise your traffic, smoke, fire, and big trucks and equipment. Be kind and cautious.
