Title:

Comments: Leave sweet water alone. The area will not accommodate larger groups of recreators nor will the road handle the additional traffic.. Adding a small number of additional primitive campsites will allow a few more campers but no utilities, no motor homes, no pavement. Keep it wild for a true experience. It also does not need a very expensive visitor center and a large group of employees to man it. You ruined Sylvan Lake with development, please don't do it at sweetwater
