Comments: Very happy to see these proposed improvements, but hoping that additional priority projects are being advanced for future approvals. Those include: 1) continued progress in plans for the town gondola, ski back trail, and parking in town for riders of the gondola; 2) fixing lift line challenges at Super Gauge and Panoramic Express. 3) fixing traffic congestion along the Mary Jane access road (which would be helped by #1 above, but which can also be helped in the short run before the town gondola is built). 4) Supporting Denver's goals of improving the frequency and shortening the time of trains to Winter Park from Denver.

Can I also put in a request for electronic trail maps that show trail grooming status, better lift line logistics, bus drop-offs at the gondola base rather than at the top of the resort which require walking all through the resort street, and other things to make the resort more welcoming and accommodating if the skier experience?

Thank you!
