Title:

Comments: My main concern is the impact this will have on our county. The impact on the water shed, creeks, rivers, and lakes. The impact on the flora and fauna indigenous to this area. The impact on county residents and their health. It is my opinion that this is a for profit decision for the company and others looking to make the "big Bucks". Just because we reside in a rural area doesn't mean we don't care about the land, water, indigenous creatures and the horrendous impact on our health - not only on ours, but on future generations!!
