Last name: Browning

Organization:

Title:

Comments: We are running out of forest areas because we keep building and building forcing animals out of their homes and creating other issues when they have nowhere to go. We need to preserve all of these areas as much as possible, we are literally running out of land and making parks over populated already as it is. The greed is taken over and we re forcing nails out of their homes Into tour backyard then that is another problem.

Save the forests!
