Title:

Comments: My entire 41 years of living have consisted of many nights stayed in the mountains of Jellico Creek. From playing in the creeks, to four-wheeling, camping, fishing, crawdad hunting, deer hunting and so on. It's the place where my momma was raised and where I was raised and where I plan on raising my kids and doing the exact same things with them. Don't take all that beauty and memories away. For us simple folk[hellip].that's all we have and deeply cherish.
