Title:

Comments: These mountains are our heritage. I have been in the logging industries for most of my adult life. I have worked in the Bernheim Forest area doing select cut which proved to be successful in new growth while preserving the landscape.

The area has recently broken into the tourist revenue with the addition of the Sheltowee trace activities and marketing of the Cumberland Fall, Sterns Williamsburg Water Park, Thunder Mountain Raceway, the Mint and Laurel Lake. The beauty of the area is a big part of the draw for vacationers.
