Title:

Comments: I live near Kanawha State Forest in West Virginia, where I spent countless hours exploring the steep mountain forests and streams behind my house. I can't imagine how my family would cope with the problems clearcutting our forest would cause, let alone my relatives in the Jellico Mountains. Four decades of landslides, road damage, and excessive traffic is far too long. Please choose the compromise of Alternative 1, or better yet, go with Alternative 2, which focuses only on controlling invasive species.
