Comments: Jellico Vegetation Management Project #63037

Please do not deforest the Jellico area. We visit every year to enjoy the trails, the forest, the mountains, the leafs, and the locals for at least ten days.

Our kids have learned so much during our trips to the Tn and Ky areas in and near Jellico. The logging equipment will destroy the areas and trails only accessible by our Jeeps and 4x4s.

They will also destroy the habitats for the many species in the area.
