Comments: I am opposed to clear cutting the trees in the Jellico Creek/Wolf Creek areas. . If the trees are dead those could be cut and cleared up. I don't understand why all the trees need to be destroyed. I think it would cause erosion. It would be bad for wildlife. We would be bombarded with snakes. I also think that volume of heavy logs being hauled over 92 West would destroy the road that has taken well over 50 years to build.
