Comments: Logging of this area will adversely impact off roading events that bring tourists and economic income to many businesses in the area. Each year, the Jeep Jamboree brings in over 200 Jeeps from neighboring states and even as far as Texas, NY, Florida, and Michigan to see the beautiful nature of the TN/KY area. These people often return yearly and also return during other times of the year to enjoy the hiking, camping, and other outdoor activities this beautiful region has to offer.
