First name: Carmie

Last name: Baxter

Organization:

Title:

Comments: My name is Carmie Baxter of 111 Bob O Link Drive Berea, KY. The Jellico Vegetation Management EA should protect the forests of Kentucky. Logging should not be permitted as preservation is more important now than ever. I regularly visit and support the National parks and forests of this state and I am heartbroken about the impact these decisions make on the wildlife, species and overall health of the ecosystems and those who rely upon them. Stop logging and cutting these forests. They are supposed to be protected!
