Comments: I am against any and all mining activity by South 32 in Southern Arizona. We moved to Rio Rico for retirement because it is beautiful and peaceful and away from traffic, crowds, industry and people. I am happy to travel to Green Valley, Sahuarita, or Tucson for things I need, and therefore, am not interested in anything South 32 will try to do to offset their negative impact on our community. There is already a shortage of water, and I am against South 32 and their activities in the area which will negatively impact resources, will destroy natural beauty, will have harmful environmental effects, and will bring unnecessary danger to our area. Please redirect South 32 to an area that welcomes them (Montana?) and is hundreds/thousands of miles from human inhabitants, rather than near a happy, peaceful community.
