Last name: BAKER

Organization:

Title:

Comments: There are so many reasons why cutting down our trees is not a good idea! Where is all the wildlife supposed to go? We need them! I want to be able to go hiking. I want to enjoy the wildlife. I want to enjoy nature and that's way more important than logging and building more houses. Even within the neighborhood where I live, the wildlife is struggling. They keep building more houses in this area and the wildlife keeps getting pushed away or killed.
