Comments: As a citizen of the United States I believe I am an owner of the National Forests. Because of that I oppose the U.S. Forest Plans to clearcut nearly 5,000 acres of nature public forest on the slopes of the Jellico Mountains in Southern Kentucky. I'm sure you have been inundated with information about why clear cutting is dangerous to the forest, I will spare you from reading about it again. Please review all the information that has been provided and do what is right to preserve our. National Forest in SouthernKentucky.
