Comments: We have owned three different Trails End condos since 1975 and have enjoyed skiing from the base of peak 9. I highly encourage Vail to proceed with the gondola as getting skiers up the mountain without lengthy lines is critical. It is so discouraging to arrive at the base and to be confronted with really lengthy waits.

I just ask that Owners of Trails End and the Cedars continue to have access to the ski slope and the lift/lifts as well as access to the Maggie Pond in the summer. Hopefully the noise from the new lift won't be overwhelming. Another concern is the use of the base of the ski area as parking in the summer. Is this even legal? It ruins the feel of the area!
