Title:

Comments: #65668 Hermosa Project. I am apposed to the S32 Hermosa project. I live in beautiful Santa Cruz County. This mine scares me to death. I have seen the destruction they have done around the world to anything living in its path. It sickens me that profits come before safe drinking water, the environment, and the health of thousands of people that call this home. There is nothing good about S32 and nothing sustainable. Please do not approve this project.
