Comments: To Whom It May Concern: I am writing to you with concerns regarding changes and updates to the campgrounds in the Redsmeadow Valley. I have been camping here with my family for 40 years and cherish the unique setting and beauty of this valley. Please leave it the way it is and has always been! I love that it is more rugged without all the amenities of other campgrounds (full hook-ups, asphalt pads, etc). Without being on the reservation system, it allows access to the campgrounds without having to schedule a vacation out months in advance. There are few areas that are as quiet and peaceful as this location. The system has worked well for years and I am hoping that it will stay the same for many more to come!!!! Please don't ruin the majestic valley with overcrowding and urbanization.

Thank you!

Amy
