Last name: Munn

Organization:

Title:

Comments: I would like all current useable roads left open to side by sides and 4 wheelers and motorcycles since they are being travelled by these vehicles already the maintenance will not be difficult. Also any roads useable by jeeps or pickups. Also leave the roads open to horses and hikers and bicycles. Idaho already has the largest wilderness area in the United States. Let those who enjoy the Wilderness enjoy that area and leave the area open that is already being used for the purpose of recreation by the previously mentioned conveyances . As a resident of the area and employee of the backcountry store and former business owner please don't shut down our lively hood and the enjoyment of our hundreds of visitors to the area. Our visitors also support the businesses throughout the County and surrounding area leaving us all with a better way of living and resources. Please leave open the following roads: Horseheaven, Sugar Creek, Missouri Ridge, Quartz Creek, Red Metal Mine, Cinnabar Mine, Fern Creek Mine, Road to Monumental, Wilson Mine, Access to Marble Creek and Lookout Mountain and any others currently usable. Please also leave the Campsites along these roads open. Thank you
