First name: Judith B.

Last name: Abel

Organization:

Title:

Comments: My legal name is Judith B. Abel, but I am known as Datar-E. I live in the area that would be adversely affected by mining operations in the Coronado National Forest. Please study the direct, indirect, and cumulative impacts of all my concerns listed below.

1. Any development projects appearing within the watershed as a result of the mining operation mine drainage harming our soil
2. Acid
3. Crushed sulfide ore being brought to the surface and harming our land
4. Reasonably foreseeable changes in air quality, water quality and quantity, and wildlife habitat
5. Effects on our health
6. Noise and lights of nighttime drilling
7. Destruction of scenery
8. Access roads being built and increased traffic
9. Decrease in tourism and resulting effect on the local economy
10. New and increased electrical power lines

Thank you for analyzing all of these concerns and all the many other concerns that local citizens may submit.
