Last name: Hinchman

Organization:

Title:

Comments: No to further foreign mining in the area. Please do not allow mining expansion. The sky islands are such a unique and fragile ecosystem that must be protected for future generations to come. The public lands are our heritage. Patagonia and the surrounding area draw visitors and revenue through hunting, biking, horse back riding , rare bird and butterfly watching and other outdoor recreation. The mine will negatively impact the local community that cherishes and relies on the surrounding wilderness.
