First name: Terry

Last name: Finefrock

Organization:

Title:

Comments: I have been a resident of Arizona since 1956, am a retired high tech electronics Corporate Director and greatly value our diverse Natural Resources, have personally hiked and camped this area of Arizona/Patagonia Mountains. I am also very active in establishing solar-storage renewable energy to reduce GHG's and protect our natural resources, water, etc.

I have reviewed South32 management, sustainability plan and believe that they exhibit responsible values, actions that satisfy USA needs for minerals in a manner that protects-conserves our natural resources.

Please approve their Plans, allow them to complete their new mining project.
