Title:

Comments: To Whom It May Concern, I am a nordic skier that regularly uses Fall Creek and West Fork areas during winter. I stay away from skiing other areas that have snowmobiles, like the top of Wolf Creek pass/ divide trail area, as the two activities (skiing and snowmobiling) are not compatible. It is vital that we maintain some areas for quiet, non-motorized activities. Everyone should have access to the national forest, for recreation activities, not just people with motorized toys.
