First name: Robert

Last name: Dickey

Organization:

Title:

Comments: My name is Robert Dickey, and I have had the pleasure of visiting the South 32 Hermosa project on numerous occasions as a Project Executive with Sundt Construction. With 33 years of experience in the mining industry, both domestically and internationally, I have witnessed various approaches to environmental stewardship.

I am deeply impressed with South 32's commitment to minimizing environmental impacts. Their policies and practices not only meet but far exceed governmental mandates, setting a new standard in the industry. South 32's dedication to environmental protection is commendable and unmatched in my extensive experience.

Furthermore, South 32 has made significant contributions to the communities of Patagonia, Nogales, Sonoita, and Tucson. Their community engagement and employment initiatives have positively impacted these local economies, demonstrating their commitment to social responsibility and community development.

Sincerely,

Robert Dickey
Project Executive
Sundt Construction
